

## ANNEX II

### ICEBREAKER ACTIVITY. 'CIRCLE OF IMPACT' (15 MINUTES)

#### Description of the Activity:

**Name:** Impact Circle

**Duration:** 15 minutes

**Objective:** To highlight how climate change affects different aspects of people's lives, especially from a gender perspective.

#### Instructions:

##### 1. Preparation:

- Set up chairs in a circle, leaving one in the centre (or use only an empty space for the centre).
- Provide each participant with a card with a role or profile (e.g., woman farmer, young activist, single mother, LGBTQ+ person, etc.).

##### 2. Exercise:

- Ask each participant to sit in a chair and place their profile card visible.
- The facilitator reads out different climate impact scenarios (e.g. drought, flooding, biodiversity loss, forced migration).
- Participants should stand up and move to the centre of the circle if they believe that the climate impact mentioned significantly affects their role or profile.

##### 3. Discussion:

- Reflect on how many people moved to the centre and why. Ask some participants how their profiles might be affected and what kinds of solutions might be useful for them.

#### Benefits:

- Promotes empathy by getting participants to put themselves in the shoes of other profiles.
- Promotes a deeper understanding of how climate impacts differentially affect different social and gender groups.
