

ANNEX I

EXAMPLE QUESTIONS AND SENTENCES FOR THE TRAINER

QUESTIONS TO SPARK DISCUSSION

1. Starting the Discussion:

- "How do you think traditional budgets in your organizations or communities may overlook the different needs of men and women?"
- "Can anyone share an example where a budget did not fully consider the needs of a particular gender?"

2. Uncovering Gender Disparities:

- "Do you think men and women face the same challenges when accessing healthcare, education, or employment? How might these differences impact the way resources are allocated?"
- "What specific needs do you think are often overlooked when only men's perspectives are considered in budgeting decisions?"

3. Bridging to Gender-Sensitive Budgeting:

- "What changes could be made to the budgeting process to ensure that both men's and women's needs are addressed?"
- "How can we ensure that funds for community projects are allocated equitably to support different gender groups?"
